NOTE FOR: Director of Central Intelligence

25X1 Attached is Danny Graham's letter to Dr. Schlesinger on [ ] We believe that he feels that this is responsive to the ExCom request that DIA and CIA (DDS&T) prepare papers on the subject.

We have forwarded a copy of this memo to Carl. Other CIA elements (ODE and OWI) also have a copy. There are inaccuracies in some of the funding figures as well as some omissions in Danny's arguments against [ ]

25X1 My staff has also had the opportunity to view the DDS&T (ODE) prepared memo supporting [ ] We have not commented on either of the above papers.

One point which you may wish to consider-- the DIA and DDS&T papers do not overlay. In other words, it is not possible to derive clear-cut comparisons for con or pro arguments. Hence, prior to your meeting with Dr. Schlesinger you may wish to have DDS&T prepare some background material for you which does just that. This aspect has been mentioned to Les Dirks.
